# Innovation & Service in Belting

## Innovation

In every industry, improvements in production mean new process solutions have to be found. Working together with our customers and with leading research institutions, Ammeraal Beltech has developed many different conveying concepts.

Within our purpose-built R&D centres, we are continuously optimising and improving our products. We work to meet new challenges, such as higher operating speeds and temperatures, increased cleanability and durability, and ever more stringent standards of hygiene and safety.

Our sales engineers have the technical proficiency to develop a belt that performs under the most challenging operating conditions. What's more, because Ammeraal Beltech manages every aspect of the belting quality – from fabric to final fabrication – we are confident in our ability to deliver the right belt for the right job.

## Service

We understand the importance of keeping business operations running smoothly and we know how costly and disruptive down-time can be. That is why we offer a local service network that is often available around the clock. Our skilled and experienced personnel are on call to install and service the entire range of the Ammeraal Beltech product portfolio.

In addition, we ship most orders directly from the extensive stocks we maintain. If requested, we can even dispatch orders on the same day by express delivery.
